PAUL C. STRECKERT, Caldwell, Texas.

All of the State departments at Washington were closed Friday out of respect to Secretary Windom.

MRS. CALLEY GILBERT was arrested in Juarez, Mex., Tuesday and incarcerated in a Mexican prison. Of course the Mexican authorities will not even tell for what reason she is incarcerated. Poor woman. She is in a hard row for stumps.

The Pecan Valley Fair Association have fixed the date of their next annual meeting on the Association grounds at Brownwood, Monday Sept., 25th to Friday Oct. 2, 1891, inclusive. This is an early start they have taken, but its the early bird etc.

The aims of the Farmers Alliance and the Knights of Labor are as widely divergent as those of capital and labor, yet there is a probability of a federation of the two orders. Behind the movement looking to this and there is evidently a cat in the meal barrel.

HARRIS A. SMILEE, of New York has been sentenced to be electrocuted in the beginning of March. His case is a literal verification of what Shakespeare said "that a man may smile and smile and be a villain still," for even after his execution he will be a Smiler.

The dignity of Congress as well as its integrity is seriously threatened with the charges of participation of Senators and Representatives in a silver pool with speculations in silver bullion certificates, and an investigation is being made but no very important testimony has been developed yet.

MR. CAMMAK is inclined to think that inflation will be responsible for the wildest kind of speculation. He expects to see silver go higher. Owing to the dull season in the iron trade and the poor outlook for miners, he predicts an exodus of thousands of Colorado and Mexico, who will be tempted by the Government guarantee to buy silver.

ALBERT W. PFEFFER, the winner in the Kansas fight is 60 years of age. He is a free silver man, a tariff reformer and a bitter opponent of force bills. He is more. He is by all odds the ablest advocate of the sub-treasury plan in the north west, and will probably make trouble in the senate. In early life Judge Pfeffer was a strong democrat, but the war issues forced him in to the Republican party. Two years ago he renounced republicanism and began to build up the farmers movement in Kansas. He is an able speaker, a forcible and trenchant writer, and a western man with all the term implies.

The Dallas Times Herald does not mince matters, but when it has anything to say talks right out in meeting—peaking its mind without fear or favor. It says: "Hang the murderers and place the pistol-toter behind the bars. Texas must not be kept in the back ground by the lawless deeds of a few men. Send them to the gallows. The press of the state should make it warm for the killers and jurors with elastic consciences. Horace Greely said the way to resume specie payment was to resume. The way to stop killing is to hang the killers."

In its review of the South's industrial progress for the past week, the Manufacturers' Record says: In every part of the South there are indications of renewed activity and signs of still greater progress than we have yet seen. Last year was a very prosperous one throughout the whole South, and business men of all classes, as well as farmers, made money, and now the financial scare has passed away, they are beginning to seek investments in industrial enterprises, while Northern and European capitalists are also preparing for liberal investments in this section. The outlook for the spring is extremely favorable and it is believed that the South is to have another year of great activity and prosperity, despite the work of politicians that seek to retard the South's advancement. During the week a large number of new enterprises have been organized. In whatever direction we look, whether in the mineral and mountain regions, in the Piedmont belt or in the pine and coast sections, there is seen activity, progress and prosperity. The South is steadily pressing forward, developing its vast resources and daily adding to its wealth.

THE ARENA FOR FEBRUARY.

The February Arena, in addition to a brilliant array of American authors, presents two papers of great interest by foreign essayists. Camille Flammarion, probably the most eminent European astronomer, writes at length on "New Discoveries on Mars." His paper is accompanied with a full-page geographical map of this wonderful star, as prepared by Flammarion and other leading astronomers. It also contains two small maps illustrating strange changes that have recently taken place on one portion of Mars. The distinguished Frenchman's paper in the short compass of sixteen pages gives the busy reader the important astronomical discoveries of recent years in a nutshell. There are many other interesting contributions and striking papers, among the contributors appearing the names of Alfred Russell Wallace, C. Wood Davis, Prof. Jas. Rhodes Buchanan, John Welch, L. L. D. Frances E. Russell and a striking ethical criticism by the editor on Ward McAllister's book "Society as I found it."

ADVICES from South America indicate that the Chilean insurrection continues unchecked. The latest report is to the effect that the rebels have captured Pisagua, the principal nitrate port. They have thus got control of the nitrate supply as well as of an important railway system of which the city is the terminus. The representatives of the foreign powers at Santiago de Chile have protested against the blockade of the Chilean ports, and several of the European countries have ordered war vessels to Chilean waters.

MISCELLANEOUS ITEMS.

Run to seed—Birds.
Leads in fashion—F.
Double play—A duet.
A rather weighty subject—A ton of coal.

BRENNHAM, JANUARY 12th, 1891.

SAM SPOLENER, Tax Collector, Washington County.

Young Steel Dust!

A BEAUTIFUL CHEST-NUT BORREL was bred by Col. Geo. J. Dunlap, and by the following Pedigree it will be seen that Young Steel-Dust is from the very best race stock in the United States. Young Steel-Dust was sired by Red Cross, he by Pat, the noted Jim Brown Race Stallion, he by Standfield's Imported Steel Dust. Young Steel-Dust's dam was a Rebel mare, bred by Dr. Williams. Red Cross' Dam was Little Molly—a noted race mare. She was sired by Old Joe, the sire of Fount and Bob Lee, the celebrated racers. It will be seen from the above that Young Steel-Dust's Pedigree is ultra fashionable, and in placing him for public service, I do so with the confident expectation that, when given an opportunity, he will demonstrate that, as a Sire, he will prove all that his rare breeding indicates. I desire to call attention to the fact that Young Steel Dust is a grand-son of Pat the King of race Stallions of the South-West.

Grover Cleveland

Is a coal black Jack, bred by W. P. Dever, of Independence; is from the very best stock of Jacks in the United States. He is a grand son of the old Matson Jack, the most noted Jack in the county, and is from a thorough bred Jennet.

The above named Stallion and Jack will make the season at my stables, 3 miles west of Brenham, known as the old Ira Clemons place, commencing March 1st, 1891, at \$10 for the season. Pasture furnished when desired, will use every care to prevent accidents, but am not responsible should any occur.

ATTENTION FARMERS,

And dealers of Farm Implements.

I am now manufacturing and selling the best middle-breakers, turning plows and sweep stocks—all of my own patent—to be had in the state. As I do my own manufacturing and employ no agents I am enabled to sell these implements very cheap. Call at my shop in Brenham and satisfy yourself of the truth of this assertion. Special attention given to repair work. Give me a trial and save money.
